

The background features a minimalist design with abstract, layered wavy shapes in shades of purple and blue. The waves are composed of several thin, overlapping curves that create a sense of depth and motion. They are positioned at the top and bottom of the frame, leaving a large central area for text.

Roadmap

Phase 1 (Current)

- ✓ iOS app with limit orders
- ✓ Polygon mainnet support

Phase 2 (Q4 2025)

- Onboarding of a Backend Developer
- Full integration with 1Inch Mainnet Router
- Push notifications for order fills
- Multiple network support (Eth Mainnet, Base, others...)
- Better UX
- Brainstorming of new features (Advanced order types)

Phase 3 (2026)

- Android version
- Full Product Vision (Solana and Sui integration? UI / UX v2? Web version? TBD)

Why We Win

Focused

- Single purpose: 1inch limit orders on mobile

Native

- Built for iOS, not a web port

Fast

- Optimized for quick trades

Secure

- Self-custodial, open source

User-First

- Designed for both DeFi pros and beginners
